# Sola-Sat MS2-LB

### **DVB-S2 L-Band Modulator (with BISS)**

#### Outline

The Sola-Sat MS2-LB DVB-S2 modulator (with BISS) is a high performance modulator developed according to DVB-S2 (EN302307) standard, which is the standard of second generation of the European broadband satellite telecommunication. It adopts advanced framing structure, channel coding and modulation technology, increasing more than 50% the transmission throughput compared with a DVB-S modulator operating under the same transmission conditions, and also providing a more powerful receiving ability in the same spectral efficiency range. This modulator is backwards-compatible with DVB-S (EN300421) modulating standard. This DVB-S2 modulator supports local and remote control through NMS software. The Sola-Sat MS2-LB DVB-S2 modulator (with BISS) can be used for Broadcasting, Interactive Services, News Gathering and other Broadband satellite applications.

#### **Features**

- 1. Fully compliant with DVB-S2(EN302307) standard
- 2. Backwards-compatible with DVB-S (EN300421) modulating standard
- 3. Two ASI inputs supporting hot backup
- 4. BISS scrambling mode; mode0, mode1 and mode E optional
- 5. Supporting local and remote control
- 6. Output level attenuation
- 7. 10MHz outer reference clock input
- 8. Output frequency range: 950~2150MHz
- 9. Full-size front panel LCD display and keyboard

## **Specifications**

| Supporting both packet and byte mode TS input  |  |   |                            |
|--|--|---|----------------------------|
| Supporting 188/204Byte transmission stream packet                                      |  |   |                            |
| Two ASI inputs, supporting hot backup  |  |   |                            |
| ASI input connector: BNC, impedance 75Ω  |  |   |                            |
| Frequency is contir  | nuously adjustable from 950 to 2150MHz   |   |                            |
| Output Level attenuation is continuously adjustable from 0 to 31.5 dB; in step 0.5 dB. |  |   |                            |
|  |  |   | Maximum Output level: 0dBm |
| MER≥36dB   |  |   |                            |
| Connector: N type, impedance 50Ω   |  |   |                            |
| Outer endines  | DVB-S  | DVB-S2  |                            |
|  | RS coding  | BCH coding  |                            |
| Inner coding   | Convolutional  | LDPC coding   |                            |
| Code Rate  | 1/2,2/3,3/4,5/6,7/8  | 1/2,3/5,2/3,3/4,4/5,5/6,8/9,9/10  |                            |
| Constellation  | QPSK   | QPSK,8PSK   |                            |
| Roll-off Factor  | 0.2, 0.25, 0.35  | 0.2, 0.25, 0.35   |                            |
| Symbol Rate  |  | 1~30M@8PSK;   |                            |
|  | 1~45MBauds   |   |                            |
|  |  | 1~45 M@QPSK   |                            |
| BISS Scramble  |  | Mode0, mode1, mode E  |                            |
| Dimension  |  | 44mm×482mm×410mm  |                            |
| Environmental  | 0~45°C(operation), -20~80°C (storage)  |   |                            |
| Power  | 100-240VAC±10%,50Hz-60Hz   |   |                            |
